

Riyazuddin

Technical Support Manager

riyaz15@gmail.com • + 91 863-922-7538
[LinkedIn](#) • Hyderabad, India

Customer Support Leader with over 13 years of success managing global teams and optimizing support operations. Proven track record in SaaS support environments, cross-functional collaboration, and the strategic implementation of AI to streamline workflows. Skilled in support team development, KPI tracking, operational scaling, and building high-performing teams that align with product evolution and user success.

Core Competencies

- **AI & Automation:** Developed custom GPTs for responses and documentation for common issues.
- **Strategic Operations:** Workforce management, capacity planning, SLA & Queue management and scaling global support teams across diverse time zones.
- **Leadership & Talent:** Managed full talent lifecycles, including 6-month APAC recruitment surges and consistently achieving 83%+ employee engagement.
- **Technical Fluency:** Deep experience in WordPress/WooCommerce ecosystems, DNS, APIs, and debugging complex software integrations.

Professional Experience

Freelance WordPress Developer | Dec 2025 – Present

- **Development & AI-Driven Design:** Built custom WordPress and WooCommerce sites, diagnosing and resolving complex issues involving themes, DNS, and APIs. Leveraged generative AI to conceptualize custom retail items for clients.
- **Technical Development & Troubleshooting:** Built and maintained custom WordPress and WooCommerce sites (e.g., naturelifewater.com), diagnosing and resolving complex issues involving themes, DNS, APIs, and advanced eCommerce extensions.
- **Client Collaboration & Reliability:** Partnered with clients to translate business needs into scalable technical solutions, executing seamless migrations and providing ongoing site maintenance and security.

Automattic | Happiness Engineer | Jun 2019 – Apr 2025

- **Technical Problem Solving:** Resolved complex inquiries for WordPress.com and WooCommerce, specializing in payment gateways (Stripe, PayPal) and third-party synchronizations (Google, Facebook).
- **Operational Excellence:** Revamped 100+ customer-facing documentation assets and updated training material to improve team resolution rates by 20%.
- **AI Automation:** Developed custom GPTs to efficiently summarize complex ticket histories and automate responses to common, high-volume inquiries, directly reducing manual effort.
- **Global Scaling:** Led a 6-month talent acquisition initiative to build the APAC workforce, managing end-to-end trials to reach 100% of regional headcount targets.
- **Customer Centricity:** Maintained high-touch support for website hosting, domain management, and DNS configuration, directly impacting user success and retention.

ESW Capital | Customer Support Manager | Apr 2018 – Aug 2018

- **Platform Migration:** Managed the seamless transition of an acquired eCommerce platform into the ESW support ecosystem.
- **Team Leadership:** Directed 15-20 L1/L2 Support Engineers, optimizing performance via Zendesk and Jira for streamlined bug escalation and tracking.

Teradata | Senior Manager | Sep 2016 – Mar 2018

- **Operational Strategy:** Oversaw a team of 50 L1/L2 support engineers, reducing onboarding and training time by 50% through workflow optimization and resource reallocation. Oversaw daily technical support activities, ensuring operational consistency and timely issue resolution. Steered operations management, talent acquisition and separation.
- **Cross-Functional Synergy:** Partnered with other teams to identify root causes for systemic technical issues, ensuring long-term service continuity.

Deloitte | Manager | Aug 2005 – Sep 2016

- **Large-Scale Leadership:** Led a 120+ member service desk division, managing budget administration and workforce operations from recruitment to exit.
- **Efficiency Gains:** Reduced Average Handle Time (AHT) from 17 to 13 minutes and cut repeat call rates from 27% to 12% via proactive issue resolution and refined protocols.
- **SLA Management:** Implemented quality standards and service delivery KPIs that significantly improved first-contact resolution rates.
